The biggest companies in the world are coming to Web Summit, and you could rub shoulders with their leaders – get your tickets here

Since the 1980s and Japan's dominance of the consumer electronics market. East Asia has been a global force in technology. Some of the biggest companies in the world have come from this region – Samsung, Acer, Sony, PCCW, Huawei, LG, Asus and Lenovo to name but a few – and the startups in the selection of companies are looking to join their ranks. From app development companies, to Startups that are all about keeping it green, to a company seeking to revolutionise personal healthcare, the range and diversity of companies coming from East Asia to Web Summit makes it easy to see why venture capitalists are rushing to invest in that part of the world. Here are just some of the brilliant East Asian Startups heading to Dublin this November.
